Note:-

- 1 Category of industry depends on pollution index of the industry.
- 2 Pollution index is determined on the basis of water pollution score, air pollution score and hazardous substances score.
- 3 If the pollution index score is 60 or above then industry shall be in Red category.
- 4 If the pollution index score is between 30 to 59 then industry shall be in Orange category.
- 5 If the pollution index score is between 15 to 29 then industry shall be in Green category.
- 6 If the pollution index score is less than 15 then industry shall be in White category.
- 7 Categorization of the industry situated in GIDA is based on the site inspection made in the year 2018-19.
- 8 If the industry adds any source of air pollution, water pollution, hazardous substances in that case category of industry shall be automatically changed.
- 9 Category of industry depends on several variables such as process, source of air pollution, source of water pollution and hazardous substances.
- 10 Industry getting place in White category on the basis of inspection made in the year 2018-19 may go into Red, Orange and Green category if industry installs any source of air pollution, water pollution and hazardous substances.
