Comprehensive Action Plan for Reducing Air Pollution in NCR (UP)

Hon'ble NGT has passed order on dt. 17-11-2017 in OA no. 21/2014 Vardhaman Kaushik Vs. Union of India & Ors. whose operative part is as following:-

".....We direct NCT of Delhi, State of Rajasthan, State of Haryana, State of Uttar Pradesh and State of Punjab to file within two weeks from today complete action plan based with reference to and based upon GRAP, orders of the Hon'ble Supreme Court of India and orders passed by this Tribunal in this case and in all subsequent orders. This action plan should have a direct nexus to the levels of pollution as indicated in the said report and judgment once the pollution level of PM_{2.5} and PM₁₀ increase 300 µg/m³ and 500 µg/m³ respectively. The steps for preventing and controlling the Air pollution should automatically come into play and should not depend upon the decision of the Government Officers in any of the States. Let the Chief Secretaries of NCT of Delhi and all other States file a report along with the affidavit with the action plan so prepared and as approved by the Tribunal shall come into force automatically on the parameter being excessive ranging for sever to hazardous. Upon filing of such action plan, the Tribunal shall issue further directions as may be necessary....."

In compliance of above order the following Comprehensive Action Plan is proposed for reducing air pollution in NCR(UP).
